Ground report

According to the route and time plan bus departed and reached the Sta Co Nutra Product Pvt. Ltd, Ranjangoan, Pune at 11:00 am, The Security officer welcomed the bus and guided for the entry in formulation plant and seminar rooms. Two batches of the students were divided and one batch was headed for formulation plant and second batch was entered in seminar room.

Lecture room was very sophisticated where the tea and biscuits were served for the students during the lecture. The PPT presentation by Mr. Kiran Kale was very informative with the introduction of company profile and principles. The important processes of the manufacturing of the APIs and Intermediates were explained. Many students have asked the queries and the instructor has solved them very cleverly and politely. After seminar the students were headed for the delicious lunch provided by Sta Co Nutra Product Pvt. Ltd. without any charge.

After lunch second batch moved for the manufacturing plant visit where Mr. Rajendra more, has guided all the students how the synthesis for API is done in pharma industry. He started with the Storage area where he explained storage and issuing of raw materials. Also he has explained the strict regulations followed in weighing of the all required chemicals used in the Synthesis. After granulation unit, batch was moved for the actual synthesis process, all the machines were of automatic and with high efficiency. Some machines had finishes the batches and some were in in actual working conditions.

In the second last part the batch was gone for the packing zone, there all the students has seen all types of pharmaceutical packaging as primary, secondary and tertiary packaging units. The visit continues to QA and QC dept., where he explained sophisticated instrument like High Performance Liquid Chromatography, Fourier transfer Infra-red spectroscopy, and Nuclear magnetic resonance equipment with Differential scanning calorimeter along with demo.
